Covid-19 - Plan of Actions Discussion

Due to the current situation we have the following items in place:

We are still progressing forward with virtual learning

Teachers have been amazing they just jumped right in

We are adding more dynamics to it PS - 8th grade

Our challenge has been not enough computers in the homes but have been able to loan out chrome books

How will we test the students? We are working through this, watching a lot of webinars through ACSI and making decisions

Assessments may have to wait until the Fall of 2020

Parents have been asking about the future, we still aren't sure.

Discussion about the length of the remaining school year?

We want our students to be lifelong learners and we need to continue to focus on the Mission & Vision Statement along with the ESLR's. It was voted on that we will continue to follow the school district and health department guidelines regarding school closure - MSP

We will continue on the track we are on right now with packets and google classroom settings.

A schedule will be set up for this.

Jimmie, Sharon and Rhonda have been on many webinars during this time
